

Naveed Khatri

Frontend Engineer & API Developer

 Pakistan (Remote)  [Contact via Email](#)

 naveed-portfolio-kappa.vercel.app

PROFESSIONAL SUMMARY

Results-driven Software Engineer with over 3+ years of experience specializing in high-performance HTML5/JavaScript frontend development and scalable backend REST APIs. Proven ability to build cross-platform interactive interfaces, optimize web performance, and design robust server-client architectures. Highly adaptable, self-managed, and actively seeking remote opportunities to deliver clean, maintainable, and efficient code.

TECHNICAL SKILLS

JavaScript (ES6+)

TypeScript

HTML5 / WebGL

React.js

PixiJS (Basics)

Tailwind CSS

Python / PHP

RESTful APIs

WebSockets

MySQL / PostgreSQL

Git / GitHub

Performance Optimization

PROFESSIONAL EXPERIENCE

Full Stack Engineer (Remote) | Freelance /
Independent Contracts

Jan 2022 –
Present

- Developed and deployed high-performance cross-platform web applications using HTML5, JavaScript, and modern frontend frameworks.
- Designed and implemented interactive UI logic, smooth animations, and responsive layouts tailored for both mobile and desktop environments.
- Architected and maintained robust backend systems and RESTful APIs utilizing Python and PHP, ensuring secure client-server communication.
- Integrated real-time features using WebSockets and managed state synchronization across multiple active users.
- Consistently utilized Git for version control, conducting debugging, and applying memory/performance optimizations across the stack.

Frontend Web Developer | Tech Solutions Jun 2020 – Dec 2021

- Built interactive dashboards and client-facing web portals using HTML, CSS, JavaScript, and React.
- Optimized legacy web applications, significantly reducing load times and improving overall memory efficiency.
- Collaborated closely with backend teams to consume REST APIs and display dynamic data flawlessly in the UI.

KEY PROJECTS (AVAILABLE ON PORTFOLIO)

Premium E-Commerce / Digital Dining SPA

Built a fully functional Single Page Application (SPA) using vanilla JavaScript, HTML5, and GSAP for complex scroll animations. Implemented a robust client-side cart system and asynchronous API integrations for order processing without page reloads.

Interactive UI Prototypes

Designed and coded highly interactive frontend prototypes focusing on DOM manipulation, cross-browser compatibility, and seamless user experiences.

EDUCATION

Bachelor of Computer Science (Expected/Completed)
